First Information
and call for papers

DEAR COLLEAGUES!

The Ministry of Transport of the Russian Federation, Petersburg State Transport University named after Alexander I. Scientific Research Center "Vagony", All-Union Research and Development Center for Transportation Technology have the honor to invite you to take part in the VII International Scientific Conference on "Transportation Technology".

REQUIREMENTS, PROJECTS):

The conference goal is to discuss new advanced ideas and engineering solutions in development of railway rolling stock. Conference sections include:

- Design, testing, maintenance and operation of freight rolling stock;
 - Design, testing, maintenance and operation of passenger rolling stock;
 - Dynamics, structural strength and reliability;
 - General problems, transport policy, economics.
- The conference has oral and poster sessions. Conference scientific committee judging upon the abstract makes decision.

Conference papers should be submitted to the organizing committee before the registration. The book of conference proceedings is published after the conference. Full papers should be submitted to the organizing committee upon the arrival and up to the last day of the conference. The authors will be informed on format requirements for the full papers and the organizing committee receives the abstracts.

The conference papers will be published in a peer-reviewed electronic edition of *PGUPS* indexed in *EBSCO*. Articles submitted before 15.05.2017 and published by the organizing committee of the conference will be published in the journal "Transport of Russian Federation" included in the approved list of journals by Higher Attestation Commission of Russia.

REGISTRATION FEE
Registration fee for the conference participant (without post-conference tour) is 600 EURO, which includes participation in the conference, technical tours and museum excursions in St. Petersburg during conference sections, participation in technical tours, cultural program, and meals.

For post-graduate students having submitted the most interesting reports judged upon the abstract (upon recommendation of their scientific supervisor and the decision of the scientific committee) there are provided three grants for participation in the conference without paying the registration fee.

participation in the conference, technical tours and cultural program, as well as meals, information materials, postal costs, and publication of conference proceedings.
